

About this Risk Assessment:

- This RA is used to mitigate the risk from COVID-19 and should be used alongside any other risk assessment for the task being undertaken
- This risk assessment includes the current lockdown status (whether national or as part of Tier 3 Alert Level) and the Government’s Local Covid Alert Level for Brighton & Hove (in the table above) as a guide/baseline on the likelihood of infection without control measures in place. The Covid Alert Level is based on several local factors including the COVID-19 reproduction (R) number - a scientific measure of how fast the virus is spreading
- The risk assessment will be reviewed whenever the Local COVID Alert Level changes or when notice of a lockdown is given
- Lockdowns may be national or initiated locally if Local Covid Alert Level Reaches Tier 3

Task / Activity Covered by the assessment	Nurseries during Coronavirus Outbreak		National Covid 19 Alert Tool	Likelihood (L)	X	Impact (I)	
			1	Almost Impossible	1	Insignificant (minor injury, no time off)	
Setting	Honeycroft – during second national lockdown		2	Unlikely	2	Minor (non-permanent injury, up to 7 days off)	
Date of Assessment	02/12/20	Date Assessment to be reviewed	As required – see about this risk assessment below	3 National Lockdown in place	Possible	3	Moderate ((injury causing more than 7 days off)
Person Completing	N Silsby		4	Likely	4	Major ((death or serious injury)	
Staff involved in assessment	S Deda & A Marks		5	Almost Certain	5	Catastrophic (multiple deaths)	
To calculate Risk Rating (R): assess the likelihood (L) of an accident occurring against the most likely impact (I) the accident might have, taking into account the control measures already in place. L x I = R				Low = 1-3	Moderate = 4-7	Significant = 8-14	High = 15-25

Covid Alert Level and Lockdown Status

Government’s LOCAL COVID-19 ALERT LEVEL for Brighton & Hove	Tier 1 MEDIUM	Tier 2 HIGH	Tier 3 VERY HIGH
Lockdown in Place [YES/ NO]	NO (as of 2nd December) – Brighton and Hove is currently at Tier 2		

What are the significant, foreseeable, hazards? (the dangers that can cause harm)	Who is at Risk?	Current control measures (What is already in place/done)	Risk Rating			What additional controls will be put in place to reduce the risk further?	Revised Risk Rating			Sign as done	
			L	I	R		L	I	R		
1. TRANSMISSION OF VIRUS											
1.1	Attendance of Children and Staff	Infection of staff, children and families	<ul style="list-style-type: none"> • All adults know not to enter the setting if they are displaying any symptoms of coronavirus & that children are not to be brought to setting if they are displaying any symptoms of coronavirus • Information given to all parents/carers prior to attending. Accessible materials widely shared and visible • Government guidance is followed and updates shared with staff as required • Parents and carers closely monitor children for signs of Covid-19 symptoms in line with guidance. NB. Vaccines and teething may cause a mild fever in children. This is a common and expected reaction, and isolation is not required unless coronavirus is suspected. Parents and carers should monitor side effects from a vaccination or teething, and if they are concerned about their child's health, they should seek medical advice • Communicate to staff and parents/carers that they need to be ready and willing to: <ul style="list-style-type: none"> ○ book a test if they or their child is displaying symptoms of coronavirus and must not attend the setting if they have symptoms or have tested positive in the last 10 days. All children can be tested, including children under 5 ○ Provide details of anyone they have been in close contact with if test positive for coronavirus or if asked by NHS Test & Track ○ Self-isolate if they have been in close contact with someone who develops coronavirus symptoms or someone who tests positive for coronavirus ○ Inform the setting immediately of the results of a test 	3	3	M	<p>All staff and children's temperatures taken and recorded at the start of each session.</p> <p>Staff are limited to the minimum needed to look after children by agreeing a rota of staff working in the nursery based on predicted numbers.</p> <p>A further risk assessment will be completed if a child is attending more than one childcare setting or if a member of staff is working in an additional workplace.</p> <p>A short induction process for staff returning to the setting covering all changes will take place.</p>	2	3	M	NS

			<ul style="list-style-type: none"> ○ If the result is positive, the setting will contact the local health protection team to carry out a risk assessment to confirm who has been in close contact with the person during the period that they were infectious, and ensure they are asked to self-isolate ○ Any confirmed cases will also be reported to Ofsted 								
1.2	Protecting shielded and clinically vulnerable adults and children, and people with particular characteristics who may be at risk.	Infection of staff, children and families	<ul style="list-style-type: none"> • Shielded & clinically vulnerable children and adults should follow government advice • From 2nd December, the government has advised that staff classed as clinically extremely vulnerable can go to work, although they should still work from home where possible. All such staff have an individual risk assessment in place • From 2nd December, children who remain in the clinically extremely vulnerable group can return to settings subject to their individual risk assessments, unless they are under paediatric or NHS care (such as recent transplant or very immunosuppressed children) and have been advised specifically by their GP or clinician not to attend an education or childcare setting • Staff and children who live with someone who is clinically extremely vulnerable, but who are not clinically extremely vulnerable themselves, should still attend settings. • Staff and children who are clinically vulnerable or have underlying health conditions but are not clinically extremely vulnerable, may continue to attend settings in line with current guidance & subject to individual risk assessments • Pregnant staff are considered to come under the clinically vulnerable category, so as above may continue to attend settings in line with current guidance & subject to individual risk assessments. Further advice is available from the Royal College of Gynaecologists. • All other staff should continue to attend work, including those living in a household with someone who is clinically extremely vulnerable. 	3	4	M	Staff are offered an individual risk assessment before returning to work.	2	4	M	NS

			<ul style="list-style-type: none"> • If rates of disease rise locally, children (or family members) may still be advised to shield during the period where rates remain high and therefore may be temporarily absent. • If people with possible risk factors are concerned, settings discuss their concerns and explain the measures the setting is putting in place to reduce risks. Setting leaders should try as far as practically possible to accommodate additional measures

				L	I	R		L	I	R	
1.4	Physical distancing and grouping	Infection of staff and children	<ul style="list-style-type: none"> To minimised mixing the children will be divided into groups which they stay in throughout each session. Groups are not mixed during the day, or on subsequent days and remain in one zone for each session Adult: child ratios specified by the Early Years Foundation Stage are maintained Attendance patterns have been reviewed to allow for consistency of groups of children mixing with no more than 14 other children throughout the week wherever possible Parents are aware of all measures in place ahead of attending including group requirements The same practitioners are assigned to each group and, as far as possible, these stay the same during the day and on subsequent days Small groups stay two metres away from each other throughout the session as much as possible Universal use of face coverings is currently not recommended in EY settings – unless required for specific tasks or where 2m distance cannot be maintained whilst a symptomatic child is awaiting collection. However, they will be used by staff as follows; <ol style="list-style-type: none"> When on the door greeting children and parents for drop off or pick up times When meeting an essential visitor When meeting with others for longer than 15 minutes and a 2-meter distance cannot be maintained When working alongside others in one spot for longer than 15 minutes and a 2-meter distance cannot be maintained Staff are responsible for ensuring their face shield is; <ul style="list-style-type: none"> - Clearly named - Kept clean and sanitary 	3	3	M	<p>The environment has been sectioned off to accommodate smaller group working in zones</p> <p>Children will eat their meals in their group 'bubble' zone</p> <p>Snack and lunch times will be staggered slightly to allow each group to access toileting and handwashing area without crossing with another group</p> <p>Records of children and staff in each group, and any close contact that takes places between children and staff in different groups will be maintained</p> <p>Guidance for parents will include details on physical distancing, groupings and general operational changes</p> <p>A supply of face coverings is held at the setting, in case they are forgotten, lost, damaged, damp or contaminated. Their use in face-to-face activities with children is</p>	2	3	M	NS

			<ul style="list-style-type: none"> - Store away safely when not in use, not left lying around • If carrying out singing & musical instrument playing activities in a well-ventilated room with as much space as possible between groups. Additionally background or accompanying music will be kept to a low level so as not to encourage participants to raise their voices. Instruments & equipment will not be shared and should be disinfected between use 			<p>avoided due to negative impact on learning</p> <p>Face coverings should be worn correctly and clear instructions given including importance of washing hands. When a face covering becomes damp, it should be carefully replaced.</p>

				L	I	R		L	I	R	
1.6	Cleaning	Infection of staff and children	<ul style="list-style-type: none"> Where any part of the premises has been closed, all required H&S checks are carried out before reopening Surfaces that children touch, such as toys, books, tables, chairs, doors, sinks, toilets, are cleaned more regularly than normal using standard detergents Toys that have been mouthed by babies and young children are placed in the sterilising buckets immediately Sharing of toys, resources and equipment is reduced as much as possible by remaining in groups. And any shared items and surfaces are cleaned and disinfected frequently Touch points of outside equipment is wiped down between groups of children Multiple groups will not use items or areas simultaneously No items can be brought in from home other than basic change of clothes, nappies and slippers Bedding is not shared by children and washed weekly at high temperature Soft toys & soft furnishings have been removed from the space Malleable materials are supervised closely on a small scale and are not shared between groups Children wash their hands thoroughly before and after messy play and frequently touched surfaces, equipment, tools and resources are cleaned and dried before they are used by a different group Seasonal decorations such as Christmas decorations are made with the children and single season use and disposed of when taken down and one artificial trees is allocated to each group / bubble to dress 	3	3	M	<p>Unusable resources have been stored to clear space</p> <p>Staff belongings have been allocated an individual non-shared area</p>	2	3	M	NS

What are the significant, foreseeable, hazards? (the dangers that can cause harm)		Who is at Risk?	Current control measures (What is already in place/done)	Risk Rating			What additional controls will be put in place to reduce the risk further?	Revised Risk Rating			Sign as done
				L	I	R		L	I	R	
1.7	PPE and cleaning supplies	Risk of infection if supplies run out	<ul style="list-style-type: none"> An adequate supply of essential supplies is available at all times Each area has its own 'cleaning zone; with access to all required items An 'isolation' pack is fully stocked and kept available to use should a child develop symptoms throughout the session and be required to self-isolate until a parent can pick them up 	2	3	M	<p>Supplies are monitored for PPE and cleaning equipment to ensure that a supply of stock is available at all times</p> <p>Supplies received from the LA regarding non-general use PPE</p>	2	3	M	NS
1.8	Arrivals and departures	Infection of staff, children and families	<ul style="list-style-type: none"> All parents dropping off or picking up children have been asked to now; <ul style="list-style-type: none"> Wear a face covering Remain behind the 2-meter mark Wait at two meter intervals from each other Wait for their child's allotted start time Be patient while waiting for the door to be opened Parent and carer drop-off and pick-up arrangements have been organised to minimise adult to adult contact by marking two meter spaces for social-distance waiting Parents maintain two metre distancing when they drop off and collect children, by handing over to staff member on the door Only one adult is asked to bring the child for drop off / pick up Parents know their allocated drop off and collection times and the process for doing so, including protocols for minimising adult to adult contact before attending 	2	3	M	<p>Guidance has been shared with all parents who, by sending their children, agree to follow it</p> <p>A process is in place for safely removing face coverings when staff (who use them) arrive at setting. Follow government guidance on how to put on, remove store & dispose of face coverings which includes; Temporary face coverings are disposed of in a covered bin and reusable face coverings placed in a plastic bag to be taken home. Hands are washed again before or on entry to the learning environment</p>	2	3	M	NS

			<ul style="list-style-type: none"> • Parents know that that they cannot gather at entrance or enter the site (unless they have a pre-arranged appointment, which should be conducted safely) • All adults and children clean their hands-on arrival at the setting • No scooter, pushchairs, prams etc. to be left on site

				L	I	R		L	I	R	
1.9	Travel	Infection of staff and families	<ul style="list-style-type: none"> • Employment bike schemes are advertised to staff as an alternative chose of travelling to work • Bike storage is available on site for staff choosing to cycle • The car parking space is offered on rotation to staff choosing to drive • Staff are reminded now to offer lifts to each other, as a safe social distance can not be maintained • Parents are made aware of recommendations on transport to and from centre to reduce unnecessary travel on public transport where possible and avoid peak times 	2	3	M	bike racks at rear of building promoted to help avoid public transport use	2	3	M	NS
1.10	Visitors	Infection of staff, children and visitor	<ul style="list-style-type: none"> • Non-essential visitors are avoided where possible. Settings restrict all visits to the setting to those that are necessary and make use of remote visits wherever possible • In instances where essential professionals such as social workers, speech and language therapists or counsellors, or other professionals are needed to support delivery of a child's EHC plan, settings should assess whether the professionals need to attend in person or can do so virtually • If they need to attend in person, they are informed in advance of the latest COVID-19 safety arrangements and guidelines to follow relevant to that setting, and the number of attendances is kept to a minimum • Essential visitors by appointment only and they are informed of health and safety procedures, including being willing to have temperature taken and remain within social distancing guidance or wear a facemask if this is not possible. Any items used, e.g. pen to sign in, must be cleaned thoroughly • The professional should also have completed their own risk assessment that they can share with the setting in advance 	2	3	M	<p>If a decision has been made to require face coverings for staff in certain situations where social distancing is difficult, such as in communal areas, the arrangements should also be communicated to visitors</p> <p>Visiting professionals are made aware in advance of settings' Covid-19 access arrangements to facilities such as toilets. Where possible, consider designating a specific toilet for visitors</p>				NS

			<ul style="list-style-type: none"> • Delivery workers and suppliers will not enter the centre, instead food deliveries and other parcels will be drop-off at door • All essential maintenance and building work is completed outside of operational hours, wherever possible. If contractors must visit the premises they are informed of health and safety procedures. Any items used, e.g. pen to sign in, must be cleaned thoroughly • If contractors must visit the premises they are informed of health and safety procedures. Any items used, e.g. pen to sign in, must be cleaned thoroughly • Currently parents/carers are not able to help their child settle, instead regular virtual updates are provided to the family to show how the child is doing • A record is kept of all visitors which follows the guidance on maintaining records of staff, customers & visitors to support NHS Test & Trace (date & time of visit, name & contact details, who they interacted with) 				<p>which can be cleaned between use.</p> <p>For new admissions, a virtual tour is offered for prospective parents and carers.</p> <p>If parents and carers are keen to visit in person, settings should inform them in advance of the latest COVID-19 safety arrangements and guidelines to follow relevant to that setting, and where possible, visits should be held after hours or only to the outside play area during regular hours.</p>				
1.11	Sickness at the setting	Infection of staff and children	<p>Covid-19 sickness procedure.</p> <p>Adult:</p> <ul style="list-style-type: none"> • If a member of staff falls ill whilst at the centre they will return home and arrange a test <p>Child:</p> <p>A procedure is in place to be followed if a child begins to show symptoms of coronavirus. This includes:</p> <ul style="list-style-type: none"> • The child will be moved to a designated 'safe zone' this will be the 'sensory room' • One adult will stay with the child using the 'isolation pack' available including required PPE • The child will leave the building with parent/ care via the shortest route • After any contact with someone unwell, staff must wash their hands thoroughly and the area around the person with 	4	3	M	<p>An isolation kit is available at all time in the agreed 'safe zone'</p> <p>A duplicate PPE kit, including a face mask is available and accessible</p> <p>'safe zone' will receive a deep clean by staff wearing PPE</p> <p>If a member of staff or child attending the setting tests positive for coronavirus, report the case to the DfE Helpline</p>	3	3	M	NS

			<p>symptoms should be cleaned with normal household disinfectant after they have left</p> <ul style="list-style-type: none"> • Managers will follow latest PHE South East Health Protection Team: Managing Suspected and Confirmed COVID-19 cases in Childcare and Educational Settings FLOWCHART • The child will not be able to return to the setting until 10 days or until a negative test result has been obtained • Additional cleaning will be carried out if there is a suspected/confirmed case of Covid-19, following government advice • If the effected child tests positive for Covid-19 other children in the same group and staff member will be contacted and asked to self-isolate or get tested. They will not be able to return to the setting until 14 days or until a negative test result has been obtained. if they are not experiencing symptoms, but have tested positive for coronavirus (COVID-19), they should self-isolate for at least 10 days starting from the day the test was taken. • The Confidentiality Policy will be followed at all times – this includes withholding the names of staff, volunteers and children with either confirmed or suspected cases of coronavirus • staff members and parents/carers understand that they will need to be ready and willing to: <ul style="list-style-type: none"> - book a test if they are displaying symptoms. All children can be tested, including children under 5 - provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace - self-isolate if they have been in close contact with someone who tests positive for coronavirus (COVID-19) symptoms • The Setting will contain any outbreak by following local health protection team advice and by notifying Ofsted 			<p>on 0800 046 8687 (option 1 for confirmed cases). They will provide any necessary information or support and will also advise who at the setting is classed as a close contact and will also need to self-isolate</p> <p>Notify confirmed cases in settings to Brighton & Hove Local Authority Education Department by email: educationandskills@brighton-hove.gov.uk and to Brighton & Hove Local Authority Public Health Department by email: Publichealth@brighton-hove.gov.uk and to Ofsted</p> <p>If there is an outbreak (2 or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus is suspected), call Surrey & Sussex Health Protection Team (HPT) on 0344 225 3861 (0844 967 0069 out of hours)</p>			
--	--	--	--	--	--	---	--	--	--

			<ul style="list-style-type: none"> In the event of a positive test of a child or adult for Covid-19, please inform us via eyc@brighton-hove.gov.uk with the following information; <ul style="list-style-type: none"> the name of your setting whether the case is a child or member of staff their initials confirmation that the person has received a positive test 			<p>or if the matter isn't urgent, email SSHPU@phe.gov.uk</p> <p>They will advise whether any further action is needed. In some cases, they may recommend a larger group self-isolate as a precautionary measure.</p> <p>If you think you may need to close the setting contact your HPT first to discuss the public health perspective</p>
