

Values and Behaviours

Honeycroft believes in the importance of learning through play and works hard to include everyone's contributions. We work to support all our children to explore their sense of place individually, locally and globally by offering activities and experiences which:

- develop knowledge of how we are all connected
- explore a sense of belonging and respect for differences and diversity
- start the early stages of acting responsibly for a more peaceful and sustainable world

The following values and behaviours articulate what is important to us and how we show them each day in the ways we work together.

| Equity & Justice Fairness in access, opportunity, experience & outcome | Inclusion Belonging & feeling relevant & involved | Voice Representation, participation & the power to affect decisions | Respect Enabling & protecting personal, community & cultural dignity | Wellbeing Improving physical, mental & emotional wellbeing |
|--|---|---|--|--|
| takes personal ownership of all you do | builds strong relationships with others | finds ways to connect with others | gives others the benefit of the doubt and doesn't assume | helps create moments of shared laughter, song, and dance |
| asks for help when needed rather than when it's a problem | keeps an open mind and thinks creatively about problems | stands up for others and speaks up | builds on other's ideas & suggestions | shows positive energy under pressure |
| communicates openly & actively listens | is enthusiastic about change and different ways of working | finds ways to try new things and stretch self | finds ways to show you appreciate others | makes everyday tasks fun |
| coaches others and shares expertise | encourages discussion of difference | offers small acts of daily greatness | respects individual and cultural differences | recognises the impact of own behaviour on those around you |
